FATAL ACCIDENT.

Israel Gilmont, a farmer residing on the Richard Bailey farm and about sixty-five ears of age, was struck by the Central Vermont freight train to Barre at Tabor's crossing and killed at 11:50 o'clock on

Monday.

Mr.Gilmont was on his way home from delivering milk at the creamery and had stopped at the N. C. Tabor house to water his horse. He drove out of the yard and apparently did not see or hear the approaching train. The horse had passed over the crossing and escaped, but the sleigh in which were Mr. Gilmont and two milk cans was struck by the engine. Mr. Gilmont was hurled about fifty feet.

Harry Tabor saw the accident and rushed to the assistance of the injured man but he was beyond help, breathing his last without uttering a word, just as Mr. Tabor got to him.

Johonnotts & Hall's ambulance was tele

phoned for and the remains taken to their undertaking rooms after Mayor Brown and Alderman Laird had investigated the cause of death. A widow, three daughters and a son survive.

The family was notified immediately and the son came to this city to take charge of the remains. The body was not mangled in any way, a little blood only being visible on the head.

Without an exception each jumped off the moving train backward and as they struck the wet platform all manner of gyrations and contortions were enacted to recover equilibrium. They issued in pairs and bunches with baggage shooting out in all directions and for the time being changed the platform into topeyturvydom.

Mr. Button explained the provisions of the bill and wherein it differed from our present law. The committee arose and reported progress.

Senator Clement: The proposed law would give Vermont some of the benefits other States enjoy. He had no doubt but what there would be plenty of companies ready to come here to organize. Mr. Viali considered that, as a large majority of the towns receive more from the State than they pay on account of the State highway tax, it would be proper for them to aid in permanent work to some extent themselves. He favored no additional tax when it was not necessary, but to take 5c of the 20s town highway tax which must be raised and apply it for this kind of work, leaving 15c for general work. It would be well to provide a penalty for commissioners who refuse to attend the county meetings, which are beneficial and instructive. The provision as to removing rolling stones once in four weeks is a wise one, being absolutely necessary to good roads. It is well also to require the commissioners to make their reports early so as to insure the completion of the work early in the season.
